

Dear Mum

As you can see this is the plant that I have looked after for the past two weeks and now I am handing it over to you to look after it for as long as you like. The only responsibility that you have to this plant is to water it every day or every second day (depending on how it looks). I have learnt a lot over the past two weeks about our universe like the earth is less than the size of a speck compared to everything else. And that the Milky Way is 120,000 light years wide. When I reflected of things when I was in Purtinga I reflected on the beauty that surrounded me with happiness and warmth. Also, I think that planting this plant in a little pot represents the meaning Shalom because Purtinga is at peace whilst flourishing with calmness and strength. It also lives up to its full potential. I would like you to care for this plant with love and affection just like how you have cared for me since I was born.

From Alicia
